Volt Carbon Technologies Files a Patent for its Air Classifier Design

September 14, 2022, Calgary, AB, Canada – Volt Carbon Technologies Inc. (“**Volt Carbon**” or the “**Company**”) (TSX-V: VCT & OTCQB:TORVF), is pleased to announce the filing of a patent pending before the United States Patent Office and the World Intellectual Property Office relating to an air classifier for extracting flake graphite from host rock.

The patent application contains new inventive claims as a result of development work performed on the air classifier over the past year. Volt Carbon will continue to advance and protect its intellectual property portfolio in the areas of environmentally sustainable graphite separation technologies.

About Volt Carbon

Volt Carbon is a publicly traded carbon science company, with specific interests in energy storage and green energy creation and green re-creation, with holdings in graphite mining claims in the province of Quebec in Canada. FORWARD LOOKING STATEMENTS: *This press release contains forward-looking statements, within the meaning of applicable securities legislation, concerning Volt Carbon’s business and affairs. In certain cases, forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “intends” “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved”. Such forward-looking statements include those with respect to: (i) management’s belief that the patent filing will result in a patent grant. (ii) the expectation that the technology will gain market acceptance (iii) the expectation that the air classifier will result in disruptive commercialization of a product.*

Statements of past performance should not be construed as an indication of future performance. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors, including those discussed above, could cause actual results to differ materially from the results discussed in the forward-looking statements. Any such forward-looking statements are expressly qualified in their entirety by this cautionary statement.

All of the forward-looking statements made in this press release are qualified by these cautionary statements. Readers are cautioned not to place undue reliance on such forward-looking statements. Forward-looking information

is provided as of the date of this press release, and Volt Carbon assumes no obligation to update or revise them to reflect new events or circumstances, except as may be required under applicable securities legislation.
